CORDOBA MINERALS CORP

(Unaudited)

(Stated in Canadian dollars unless otherwise noted; tabular amounts in thousands)

1. DESCRIPTION OF BUSINESS AND GOING CONCERN

Cordoba Minerals Corp. (the "Company" or "Cordoba") is a publicly listed company incorporated under the laws of British Columbia, Canada. Its shares are listed on the TSX Venture Exchange under the symbol CDB. The Company's head office and registered office are located at Suite 606-999 Canada Place, Vancouver, British Columbia, Canada, V6C 3E1.

At September 30, 2025, Ivanhoe Electric Inc. ("Ivanhoe Electric"), the Company's publicly-listed majority shareholder, held 60.9% of the Company's issued and outstanding common shares (December 31, 2024 - 62.5%).

The Company, together with its subsidiaries, is a mineral exploration, evaluation and development group focused on projects located in Colombia and the United States. The principal business of the Company is the acquisition, exploration, evaluation and development of base and precious metal properties.

The Company's condensed interim consolidated financial statements are prepared on a going concern basis, which assumes that the Company will continue in operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business.

For the three months and nine months ended September 30, 2025, the Company had no operating revenue and incurred net losses of \$9.4 million and \$25.9 million (September 30, 2024 – \$7.9 million and \$22.8 million). At September 30, 2025, the Company had consolidated cash of \$12.3 million (December 31, 2024 - \$14.5 million) to apply against current liabilities of \$6.9 million (December 31, 2024 - \$12.3 million).

At September 30, 2025, the Company believes that it has adequate resources to maintain its minimum obligations, including general corporate activities, based on its cash position, the strategic arrangement with JCHX Mining Management Co., Ltd. ("JCHX") for the joint development of the Company's Alacran Project (Note 10(a)) and its ability to pursue additional sources of financing, including equity placements. The remaining proceeds from the third installment will be used to continue the development of the Alacran Project and for general corporate purposes.

The Company currently has no source of operating cash flow, and it has no assurance that additional funding will be available to it for additional exploration, evaluation and development programs at its properties, or to enable the Company to fulfill its obligations under any applicable agreements. The Company's ability to continue as a going concern is dependent on its ability to obtain additional sources of financing to successfully explore and evaluate its mineral properties and, ultimately, to achieve profitable operations. Significant reliance is placed on the funds received from JCHX to advance the Alacran Project (Note 10(a)). As such, there is a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

(Unaudited)

(Stated in Canadian dollars unless otherwise noted; tabular amounts in thousands)

These condensed interim consolidated financial statements do not reflect adjustments to the carrying values and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern, and such adjustments could be material.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES

(a) Basis of presentation

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting. These condensed interim consolidated financial statements do not include all of the information and footnotes required by IFRS® Accounting Standards for annual financial statements and should be read in conjunction with the Company's annual consolidated financial statements for the year ended December 31, 2024, which have been prepared in accordance with IFRS Accounting Standards, as issued by the International Accounting Standards Board ("IASB").

The accounting policies used in the preparation of these condensed interim consolidated financial statements are the same as those applied in the Company's most recent consolidated annual financial statements for the year ended December 31, 2024, except for certain pronouncements disclosed in Note 2(b).

These condensed interim consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair value.

All financial information has been presented in Canadian dollars in these condensed interim consolidated financial statements, except when otherwise indicated.

(b) Adoption of new and revised accounting standards and interpretations

In April 2024, the IASB issued IFRS 18 Presentation and Disclosure of Financial Statements. This standard aims to improve the consistent and clarity of financial statement presentation and disclosure by providing updated guidance on the structure and content of financial statements. Key changes include enhanced requirements for the presentation of financial performance, financial position, and cash flows, as well as additional disclosures to improve transparency and comparability. IFRS 18 is effective for annual reporting periods beginning on or after January 1, 2027. The Company is currently assessing the impact that the adoption of IFRS 18 will have on its consolidated financial statements.

Several other new accounting standards, and amendments to standards and interpretations, have been issued but are not yet effective for the year ended December 31, 2025. None of these changes have been early adopted nor are they considered by management to likely have a material impact on the Company's consolidated financial statements

(Unaudited)

(Stated in Canadian dollars unless otherwise noted; tabular amounts in thousands)

(c) Critical accounting estimates and judgments

The preparation of the Company's condensed interim consolidated financial statements in conformity with IAS 34 requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The Company has consistently applied the significant accounting judgments, estimates and assumptions set out in Note 5 of the Company's audited consolidated financial statements for the year ended December 31, 2024, to all the periods presented in these condensed interim consolidated financial statements.

10. NON-CONTROLLING INTEREST

(a) CMH Colombia S.A.S.

On May 8, 2023, Cordoba announced that Cordoba and JCHX had satisfied all necessary conditions to close the US\$100.0 million strategic arrangement for the joint development of the Alacran Project in Colombia. As a result of the closing, JCHX has funded the initial installment of US\$40.0 million towards its 50% ownership interest in CMH Colombia S.A.S. ("CMH"), a company existing under the laws of Colombia, which owns 100% of the Alacran Project and is the joint venture vehicle for Cordoba and JCHX in this strategic project level partnership. For its 50% interest, JCHX will pay the US\$100.0 million purchase price in three installments. At the closing of the transaction, US\$40.0 million was paid as a first installment. On January 4, 2024, Cordoba announced receipt of the second installment of US\$40.0 million (Note 12(a)(iii)) that was payable in cash upon the board of directors of Cordoba approving the Feasibility Study of the Alacran Project and the filing of the Environmental Impact Assessment ("EIA") to the relevant Colombian Government authority, with US\$10.0 million of this amount paid in late December 2023 and the remaining US\$30.0 million settled in early January 2024.

On May 8, 2025, Cordoba and JCHX agreed to amend the agreement. Under the amended agreement, a third and final installment of US\$20.0 million is payable in cash prior to September 30, 2025. On June 25, 2025, JCHX completed the third and final installment of US\$20.0 million to maintain 50% interest in CMH.

A Joint Venture Shareholders' Agreement ("JV SHA"), entered into at closing, governs the strategic relationship between Cordoba and JCHX, and sets forth the general responsibility and authority of the CMH board of directors ("CMH board"), in addition to the entitlements of each shareholder. The JV SHA provides that (1) the CMH board will comprise of four individuals, of which two directors will be nominated by Cordoba and the other two directors will be nominated by JCHX; and for so long as the shareholdings in CMH remain 50%-50%, a Cordoba representative will serve as the Chairperson of the Board of Directors, and will possess a casting vote on all matters subject to a list of reserved matters; (2) Cordoba will be appointed as the operator and manager of the Alacran Project pursuant to a management services agreement and will be responsible for setting the annual programs and budgets for the CMH board's approval; (3) JCHX (or its affiliate) has right of first offer to bid on the Engineering, Procurement and Construction and Detailed Design Agreement contracts, provided that Cordoba has the right to open the process out to competitive tender; with JCHX having the right to match any competitive bid; and (4) JCHX (or its affiliate) shall be entitled to up to 100% of the offtake from the production under the current Feasibility Study of the Alacran Project, provided that they are paying fair market value and they are the most competitive offer (including a matching right for other third-party proposals).

(Unaudited)

(Stated in Canadian dollars unless otherwise noted; tabular amounts in thousands)

Management's assessment upon completion of third installment concluded that Cordoba continues to control CMH. Accordingly, Cordoba has continued to consolidate CMH.

On May 8, 2025, the Company entered into a framework agreement (the "2025 Framework Agreement") to sell its remaining 50% interest in the Alacran Project to JCHX. The proposed sale will be executed through the divestment of its wholly owned Colombian subsidiaries, Minerales Cordoba S.A.S. and Exploradora Cordoba S.A.S. to an indirectly wholly owned subsidiary of JCHX. Under the terms of the agreement, the Company will receive (i) cash payment of US\$88million at closing, and (ii) deferred payment of US\$12million, payable upon earlier of commencement of commercial production at the Alacrán Project, or 36 months from the closing date. In addition, the Company may receive a contingent payment of either US\$8million or US\$28million, depending on the prevailing copper price at the time of commercial production at the Alacrán Project. If the copper price falls below a certain threshold, the Company may not receive this contingent payment. At September 30, 2025 the proposed sale has received shareholders' approval, conditional approval from the TSXV subject to customary closing documentation prior to closing of the transaction and is pending EIA approval.

The carrying values of CMH's assets and liabilities were \$22.1 million and \$12.1 million as at September 30, 2025 (December 31, 2024 - \$23.3 million and \$18.3 million (Note 2(d))). Under the amended agreement, the current earn-in phase has been adjusted to spend \$14.2 million by April 24, 2026. 14. FINANCIAL INSTRUMENTS

Financial assets and liabilities have been classified into categories that determine their basis of measurement and, for items measured at fair value on a recurring basis, whether changes in fair value are recognized at fair value through profit or loss or fair value through other comprehensive income ("FVTOCI").

(Unaudited)

(Stated in Canadian dollars unless otherwise noted; tabular amounts in thousands)

The carrying amounts for cash; other receivables; deposits; accounts payable and accrued liabilities; and amounts due from or to related parties approximate fair values due to their short-term nature.

Financial instruments measured at fair value are classified into one of the three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values.

The three levels of the fair value hierarchy are:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- Level 3 Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Investments in traded equity securities are classified as financial assets and valued using level one inputs.
